

PCM = The New Solution for Pharmacy Benefit Management.

PCM reduces drug costs to consumers and payors, while improving the overall quality, integrity and delivery of healthcare.

PCM is the next generation PBM

The Pharmaceutical Care ManagerSM (PCM) is a revolutionary healthcare model that goes beyond traditional pharmacy benefit administration. The PCM delivers Pharmacy Benefit Management (PBM) and Medication Therapy Management (MTM) services with complete transparency, integrity, and pass-through of cost savings to the payor. Our MTM program is specially designed by pharmacy clinicians from leading academic institutions to ensure improved medication safety, adherence to treatments, and cost effectiveness.

Our PCM offers much more than traditional PBMs, including:

- **No hidden mark-ups** between what is paid to the pharmacy and what is billed to the payor
- **Consumer drug savings program** at retail pharmacies nationwide
- **Full transparency** and pass-through on rebates and pharmacy network discounts
- **Medication Therapy Management** developed and conducted by pharmacy clinicians from leading academic institutions
- **Complete pharmacy benefit management services**
 - Claims processing and management
 - Customized formulary design and maintenance
 - Pharmacy network management
 - Pharmacy and customer support
 - Rebates and discounts on pharmaceuticals
 - Mail-order and specialty pharmacy services
 - Real-time claims and rebate reporting tools

Ventegra's PCM solution combines fully transparent pharmacy benefit services with a patient-focused MTM program to help payors maximize cost savings and deliver superior quality of care.
