

September 8, 2008

Ventegra has continued to enjoy an unparalleled year of significant growth and success in the marketplace. We have signed twenty-three medical groups, three health plans, and five pharmacy benefit aggregators that together represent a client base of 3M lives. We have already exceeded our 2008 target and are on track to have close to 4M lives by the year's end. Manufacturers and service providers have also seen the value of the Ventegra channel and we now have contracts with about thirty different pharmaceutical manufacturers and over ten different service vendors.

Our business model and approach has gained significant traction in the marketplace. Our contract portfolio that provides discounts on products AND services appeals to many payors who want to take charge of their own destiny and finances. Ventegra and its strategic partners allow "one stop shopping" for our clients. As an "infrastructure vendor," we have gained considerable intellectual property in addressing strategic and tactical issues in a new, developing paradigm.

To ensure our success, Ventegra has undergone organizational and resource restructuring to position ourselves for this growth. We are pleased to announce that Mariana Ritchie, MPH, has been promoted to Vice President, Industry Relations. Those who know Mariana

understand the critical role she plays in shaping the Ventegra culture, philosophy and direction. Michele Yoon, Pharm.D., has also been promoted to Director, Clinical Programs. Michele will be spearheading our clinical efforts including the launch of our "Prospective Savings Reports" to our clients, affiliated pharmacists and medical directors. Finally, Marnie Anton-Martinez (Client Management Specialist) joins Maryn Masumiya (Client Management Specialist) and Laurie Maruyama (Director, Client Implementation) to support our growth and infrastructure.

As we enter this new era in the evolution of Ventegra, please know that the Ventegra team is uniquely qualified and dedicated to bringing about a healthcare solution that is built upon a foundation of "Truth and Integrity." We have a firm focus on what is needed to make this a reality, and our organization continues to evolve in order to meet and exceed your needs and expectations.

For those of you planning to attend the October AMCP, Mariana and I look forward to seeing you there. We would be happy to reserve time to meet with you and your colleagues to provide a personal update. Please contact me at bob@ventegra.NET, or 858-551-8111, ext. 109.

On behalf of the entire Ventegra team, please accept our gratitude for your continued confidence in our organization.

Sincerely,

Bob
