

Ventegra's Premium Plus drug formulary has been developed by a committee of physicians and pharmacists to ensure the provision of safe, efficacious, and cost-effective drug therapy. The committee meets on a quarterly basis to discuss new drugs and new prescribing information as it becomes available.

This list of outpatient prescription drugs provides frequently prescribed medications and which copayment tier will apply to the medication. The following formulary reference is designed so that it features medications in generic and brand name drugs. The brand name products are listed in proper case ("Brand Name") and generic products are listed in lower case ("generic name") in each drug category.

TIERING

- Tier 0 - ACA drugs
- Tier 1 = Generic
- Tier 2 = Preferred Brand Drug or
*High-cost Generic
- Tier 3 = Non-Preferred Drug
- Tier 4 = Preferred Specialty Drug

BENEFIT NOTES

- A = Age Edit
- G = Gender Edit
- PA = Prior Authorization
- QL = Quantity Limit
- ST = Step Therapy

Coverage for some drugs may be limited to specific dosage forms and/or strengths. Clinical edits such as quantity limits, age and gender restrictions may apply to some medications. Since changes to the formulary may occur throughout the year, medications listed on this formulary are subject to change. The listing of a medication on this formulary does not guarantee coverage. The excluded medications are not part of the member benefit. If you fill an excluded medication, you will pay the full retail price.

You may contact a Customer Care representative to obtain current formulary status of a particular medication. Please review your benefit plan documents for additional information regarding your pharmacy benefits and restrictions.
